Garage Worker Fatally Burned Near Carseland

Much gloom was cast over Carseland and district last Thursday April 21, when it was learned that Robert Dawson had been fatally burned as a result of a gasoline explosion. The victim was employed at the Alberta Gov't gravel pit south of Carseland when the disaster occurred, and was pouring gasoline from a tank when, through some unknown cause, the gasoline ignited and exploded. The petrol soaked clothing immediately took fire and efforts of two witnesses to render assistance were unavailing. The fatally injured man was only rescued from the burning garage after a corner had been forced by aid of a truck. The late Robert Dawson was 23 years of age and had made a wide circle of friends throughout the district. He had a cheery personality and was a promising athlete having played ball for several years with Carseland and Blackie.

It's a Sair Fecht!

When Greek Meets Greek

Well! Hoo dae ye dae, Mrs. McGillicuddy? Hoo's yer husband an' a' the wee McGillicuddies taeday? A hope ye're a' keepin' weel! Isn't this terribly dirty weather we are ha'ing? It's a sair sicht! Sic a day A've niver seen fer monies, the day. A'll be richt gled when the summer cam's fer. A'm fair scunnert o' this Spring weather. It doesnae gie a body a chance tae dae ae thing. Aye! Ye ken since the lights an' the poo'er went on the blink A thocht A wid niver get ma claes washit. Ye see A've gotten sae used tae ma washin' machine that A widna dae ma claes by haund ony mair. Well! The poo'er company hae gotten their lights mendit an' noo ye canna get tae hang them oot on the line. It's fair awfy. This meeserable wind comes fleein' a' ower the the lot and daein' its best tae snaw an' blizzard. Whit kin a puir wumman dae? Sit doon an' twiddle her thumbs? An' the morn's efternin A suppose the stoor'll be blawin' sae thick that ye winna be able tae see ae licht burnin' in yer ain hoose! Aye!

Weel! A maun gang hame an' git ma man's denner on, fer he'll soon be in screechin' fer the rice pudden A didna mak'. So long the noo Mrs. McGillicuddy. A'll be seein' ye!

Stamp Taxes

An ammdment to the special war revenue act will provide for an increase in the stamp tax on cheques and other instruments. The new rates given below, will be effective May 2; Promissory notes, including lien notes, \$100 and under 3c; over \$100, 6c; bills of exchange of every description, including drafts lodged for discount, collection or collateral, \$100 and under 3c; over \$100,

Whitefish Eggs For Lake Newell

Five million eyed whitefish eggs will be planted in Lake Newell, near Brooks by R. T. Rodd, provincial fisheries commissioner, assisted by A. Griffin, of Brooks, Walter McHugh and other residents of the district. The whitefish stocking in Lake Newell is an experiment as there were no fish of this species in the lake previously. It will take about four years for the whitefish to develop to the usable stage but the success of the experiment can be determined in probably half this period. Lake Newell is already inhabited with pike which are utilized commercially and also for sport fishing. Its population also includes suckers although these are discouraged as much as possible.

Mr. Rodd visited Calgary on Thursday en route to Brooks with the eggs and he was confident that at least a fair trial would be given the whitefish in this new habitation.

He reported that the commercial hatchery at Lesser Slave Lake had enjoyed a very successful season. Altogether about 149,000,000 white fish had been gathered for this hatchery but as the accommodation was limited, 15,000,000 had to be returned to Lesser Slave Lake and Whitefish Lake, 50 miles north of Grouard. Mr. Rodd estimated that the loss would not be more than nine per cent whereas last year it ran to slightly more than twelve per cent.

Two varieties of whitefish are involved, the Labrador whitefish from Lesser Slave Lake and the common white fish from Whitefish Lake. Eggs of the common Labrador variety were placed in Lesser Slave Lake last fall as this type reproduces more rapidly than the Labrador. For table use there is practically no appreciable difference between the varieties. Whitefish stockings will be done in various lakes to replenish supplies but no new waters will be affected outside of Lake Newell.

The past winter was more favorable to the fish than that of 1930-31, Mr. Rodd reported. There was more snow and water and prospects for angling are, on the whole, quite promising.

Shouldice News

The Shouldice School Board held their regular meeting last Saturday afternoon at the home of Mr. A. Smith, all members being present. The usual routine business was dealt with. The Trustees decided to fix up the swings and purchase a new football.

6c; cheques, bank drafts, bank money orders, deposit receipts, express orders, traveller's cheques, post office money orders issued in Canada, grain and other produce purchase tickets and other documents negotiated by a bank, \$5 and under, no tax; over 5 and not exceeding 100, 3c; over 100, 6c.

Combine to Honor Railroad Veteran

W. G. Chester Serves Order
Railway Conductors for
Quarter Century

When W. G. (Billy) Chester, of Winnipeg, retired after twenty-five years service as general chairman of the Canadian Pacific section of the Order of Railway Conductors, something of the character that had won him the esteem of not only the men for whom he acted as chief spokesman, but of the company with which he negotiated was revealed by Grant Hall, senior vice-president of the Canadian Pacific Railway, when he said:

W. G. CHESTER

Speak to the conductors whom he represented as well for a quarter of a century and one learns that "Billy" Chester was "a square shooter," than which in the ranks of his kind there is no prouder title. Chester is sparing of words and always has been. Throughout his career as head of his order he has maintained the balance of a keen loyalty both to his men and to the Canadian Pacific Railway, with a realization that discipline was as important for the protection of the former as the latter. He knew how to be firm when what he thought were the rights of his men were at stake, without creating ill-feeling in the minds of company officials with whom he might be negotiating.

This is what Chester himself has to say of these relationships: "My relations with the members of the organization and with the general officers of the company have been most friendly and satisfactory and the boys on the road have always given me a fair break. I have had the same treatment from the company's officials. I have tried to reciprocate."

Mr. Chester began railroading away back in 1881, and had 25 years with the Company before entering the service of his Order.

School Notes

The janitor has been kept real busy lately, sweeping up mud which the school children neglect to leave outside. So much dust has had to be swept out that he has had to work a nightshift.

Teacher: "Why should they celebrate George Washington's birthday and not mine?"

Neil: Please, sir, he never told a lie.

Indoor baseball has been the pastime at noons and recesses during the rainy spell.

Florence isn't well lately. She has been complaining of a headache. Well, who wouldn't if they tried to take the water off their brain with a clothes-wringer.

Jack: "Why is the skunk a queer animal?"

Malcolm: "Because its offensive on the defensive?"

The teacher asked the students of the class, if any student thought he was dumb, to rise.

A moment later Boynton arose.

"Do you think you are dumb?" the teacher asked.

No, but I hate to see you standing alone," replied Boynton.

Conduct Club

DR. SMITH

Yes, it is nothing more than the ordinary Question Box and all our readers are invited to send in questions regarding the Bible belief or conduct. Address your questions to Dr. Smith, care Bow Valley Resource.

Of course Dr. Smith is a pseudonym. But we have secured the services of a well known Minister of wide experience and good academic standing, who will conduct this department. But we reserve the right of selecting the questions to be answered. It would be much better if all questions were signed by those who submit them. Names or initials will not be published and questions will be treated confidentially. But unsigned questions will not necessarily be refused on that account.

QUESTION: If we cannot accept every part of the Bible as literally true does this not annul the rest of its teaching?

First let us try to find out just what we mean by the word true as related to the Bible. If we mean the numerical exactness of the lost Israelites who crossed the Jordan, then very frankly we shall have some difficulty in harmonizing the numbers in Kings and Chronicles. But if we mean that such a passage was ever made then we are within the limits of scientific history. The archaeological discoveries of the last few years have served to support rather than contradict the Bible evidence. And even in the Gospels, which contain the essence of Christian teaching, differences may be found. For example, did the cleansing of the Temple come at the opening or closing of Jesus' ministry and did the woman anoint Jesus' head or feet or were there two cleansings and two anointings? But these differences in detail, from the standpoint of legal evidence, rather establish than destroy the truth.

But let us grant that there are actual misstatements or other materials that we individually cannot accept, does this necessarily destroy the value of the Bible as a guide for us and for all mankind? Now if a writer should be asked to make a write-up on the town of Arrowwood and he should state that the curling rink was back of the tennis court but he had the school, the church, the station, the post office and every other building in its right place would that mean that his whole essay was of no value historically or otherwise? We do place the Bible in a class by itself and naturally hesitate to bring it to the level of other writings for purposes of illustration, etc. But we must remember that it has passed through human hands in its writings, translation and the human elements are bound to appear.

No, we would very frankly say, one error or many errors will not destroy the truth that is contained therein. In fact no mind has been able to grasp it all but accepting what we see, the larger truth becomes clearer and clearer as study and discover.

"Red and Blue" Contest of the B. Y. P. Closes

The "Red and Blue" Contest which began the first Sunday in February and continuing till the first Sunday in May, has come to an exciting close.

The nature of the contest was to increase the attendance and provide more interest in the lessons. This proved to be more than satisfactory before the contest was finished.

The contest was made up of points as follows:

Attendance	2 points
Punctuality	1 point
Bringing Quarterly and knowing lesson	1 point
Questions answered in class—	
For first	2 points
Over one	1 point
New members	5 points
Visitor	3 points

Mildred Kauffman was the capable leader of the Reds and through her boosting and enthusiasm, urged the Reds to victory.

Evelyn Burriess, the leader of the Blues, was equally as capable and enthusiastic and through her good management of the Blues there was close rivalry between the two sides.

The Reds won the contest by 100 points. Dorothy Vancil was the winning member of the Reds, having 104 points. Melvin Bowman was the winning member of the Blues having 70 points.

Quinter Hollenberg, the teacher and leader of the B. Y. P. D. helped very much in the contest by introducing the lessons each Sunday and closed it with some suitable poem or story. He helped in every way possible and was well pleased with the contest in every way.

The Blues, the losing side, will give the Reds a banquet to be held in May. The date as yet is uncertain.

Altogether the contest was a wonderful thing for the class, which was filled each Sunday. The highest attendance was thirty one. A new contest of a different nature will be started again as soon as the spring work is over.

Land Well Soaked

According to the reading of the meteorological instrument by Mr. W. C. Lyle, 3.33 inches of rain fell during the last storm. This instrument did not register the fall of sleet and snow.

We feel sure that the total amount of precipitation would easily reach the four inch mark. The clouds are still very heavy with every indication of further moisture.

Seeding operations are held up in the meantime, but with 20 per cent of wheat seeding done and the remainder of the land in excellent condition for the seed, there is certainly no cause for concern.

Up to Friday of last week the Consolidated Mining and Smelting Company at Trail had shipped 400 cars of fertilizer to the prairies this year. The use of the fertilizer will increase the output of the prairie by at least 25 per cent, it is said.

A Million Dollars

A certain city in the south is not noted for its modesty. After a heavy storm the newspaper came out with the blazing headline, A MILLION DOLLAR STORM. And the harvest that fall vindicated the paper. So we may well expect a similar experience this fall.

You should have seen the printer on the end of the crank as last week's issue of the Resource went through the press. And people carrying around candles have brought back the good old days of the dark ages. For lucky was the family with a couple of coal oil lamps and a gasoline lamp was a rare luxury. And the women have been putting off their washing and house cleaning because the humble wash board and the broom have given place to the power washer and the vacuum cleaner. Our greatest surprise was to turn the taps in a neighbors house and get no water. Had the well gone dry? There was plenty of water on the surface and the atmosphere had more than it could contain. It took some seconds to realize that a motor ran the pump.

And inconvenience has passed into heavy losses. Information regarding stock has not come to hand but there must have been some losses. And now, when the government is putting forth every effort to economize, damage to telephones and roads have created work but plunged the country into heavy expenses. But in spite of public and private loss we have not heard a grouch and we hope we'll not.

During the past three years we have had the best of roads and uninterrupted telegraph, telephone and light and power service. But crops-well, really you would rather that we didn't talk about them. We have paid, and paid heavily for our convenience. And now that moisture has come, we are paying for that. But then, most people like to pay their way and she's a pretty good old world anyway.

Now just before we leave this subject we would like to pay a well earned tribute to the C. P. R. For three days Gleichen station was cut off from communication both east and west and yet the mainline traffic was kept intact without an accident.

UNUS SOLUS

With five steamers in service between Port McNicoll and the head of the Lakes during the coming season, the Canadian Pacific Railway announces that they will now accept shipments of freight at eastern points destined to points in western Canada, via Port McNicoll, Ont., and their lake and rail route subject to delay at Port McNicoll pending the first sailing.

Health Service

OF THE
Canadian Medical AssociationEdited by
GRANT FLEMING, M.D. — ASSOCIATE SECRETARY

Rickets

Rickets is a very common disease of infancy and early childhood, which means that it occurs during those years when the body grows most rapidly.

It is usually during the first months of life that rickets begin. At that time, unless it is severe, it is not likely to be recognized by parents. It is usually later, when the weakness of the muscles and deformity of the bones are noticeable, that parents realize there is something wrong.

Rickets is one of the deficiency disease. It occurs because there is some essential lacking in the diet—Vitamin D, or the antirachitic vitamin. Sunshine has the same effect as Vitamin D, so we may say that rickets is the result of a lack of a certain food substances and

sunshine.

The antirachitic vitamin is found in abundance in cod liver oil, and is also present in egg-yolk. All babies, whether they be fed naturally or artificially should receive cod liver oil. Beginning towards the end of the first month with a few drops twice a day, the amount is quickly increased to one teaspoonful three or four times a day. During the summer the dose may be reduced. It is better to continue with small doses than to stop giving oil altogether. If its use is continued, the problem of starting again does not arise.

The reason why the dose can be decreased in summer is because, in summer, the child can secure plenty of sunshine which, as we stated, has the same effect upon his body as has the Vitamin D in cod liver

oil.

The cod liver oil which is used must be a brand which has been tested and found to contain the required vitamin.

The child who has rickets is usually irritable and restless. It will be noticed that his head perspires excessively, and that when he is lying, he has a tendency to roll his head from side to side on his pillow. The disease may be slight or severe, and depending on the severity, will be noticed the protruding abdomen, flabby muscles, enlargement of the joints delay in teething and in walking.

If the condition is at all severe and is allowed to go untreated, the deformities of the bones become permanent. It is particularly serious if the child is a girl, because it may cause deformity of the pelvis which will lead to trouble when the time comes for her to be a mother.

Obviously the right thing to do is to prevent rickets. This can be done if cod liver oil is given in sufficient amounts and the child gets plenty of direct sunshine. Every child should spend part of every day out of doors.

How many Supertwist Cords
in the average Goodyear Tire?

THE ARROWWOOD GARAGE

R. L. CULP, Proprietor

Accessories, tires, gas, oil, battery service, and repairs to all makes of cars

A cool THOUSAND DOLLARS for merely estimating the number of cords in the average Goodyear Tire! Think of what you could do with that \$1,000.00. New car? . . . Cottage at the lake? . . . Trip abroad? . . . Education for the youngsters? . . . Oh, there are plenty of wonderful things one can do with real money and lots of it. And there is no catch in this contest. Someone is going to win the \$1,000 first prize for the nearest correct estimate. And others will get the 103 other cash prizes which vary from \$500.00 down to \$10.00.

You don't have to spend a cent of money to enter. Read the simple contest conditions, get an entry blank from any dealer selling Goodyear Tires, and send in your estimate today.

Anyone from a household in Canada where a car is owned may enter. There is no entry fee, nothing to buy, no special requirement. All tire dealers, all employees of rubber companies and the families of both are debarred.

See the six Goodyear Tires of various sizes, types and ply-thicknesses at any Goodyear tire dealer's, then estimate the number of cords in each, add the six individual tire estimates together, and divide by six to strike the average. Submit the number you estimate on a standard entry blank which may be obtained free of charge at any Goodyear tire dealer's.

A section of tire fabric showing the Supertwist cords, is on display in every Goodyear tire dealer's store. This will help you make your estimate.

The closing date is June 5th, 1932. No entry bearing a later postmark date will be considered. Address: "The Goodyear Supertwist Cord Contest," New Toronto, Toronto 14, Ontario.

Come in and see Supertwist Cords demonstrated
and get a helpful booklet of contest directions.

Ready for Your Fields— —A New John Deere Disk Tiller with a Field Proved HEAVY-DUTY POWER LIFT

A new John Deere Disk Tiller is ready for your fields. Ready with all the field-proved features that made the old John Deere Tiller the choice of many farmers in this region—plus a heavy-duty power lift of the improved, long-lived John Deere type.

With this important improvement the John Deere Disk Tiller is as easy to handle as a tractor plow. Just a tug on the handy trip rope as you drive along sets the lift to work, raising the disks clear of the ground for turning, backing or transporting; another pull drops the disks to working position.

In addition to the time-saving, effort-reducing advantage of the John Deere heavy-duty power lift, you get the thorough work and great strength for which the John Deere Tiller has always been famous.

Stop in next time you are in town and get acquainted with the new John Deere Disk Tiller. We want to show you all of the features that mean satisfaction.

Here and There

Forty British sportsmen will make up five parties which have arranged to fish trout and salmon on the Miramichi River, N.B., during 1932, according to announcement by the provincial director of information and tourist travel.

Canada shipped more than 5,000,000 pairs of rubber and rubber-soled boots and shoes valued at approximately \$4,408,100 to more than 80 countries during 1931, according to information given out by the Dominion Department of Trade and Commerce.

Travelling Canadian Pacific across the Dominion from Detroit and visiting Niagara Falls, Toronto, Ottawa, Montreal and Saint John prior to sailing by S.S. Melita for their home countries, eight European Ford Motor dealers were lavishly entertained at all cities they stopped at.

S.S. Montclare, the ship that inaugurated Canadian Pacific ocean passenger service at Halifax this winter after a lapse of twenty years, saluted the port with a shrill blast of her whistle Good Friday evening when she ended her last visit to Maritime ports for the 1931-1932 season.

Scotland will send an official Trade Mission ship to Canada this spring with a view to developing closer business relations with the Dominion. Over a hundred Scottish firms have already booked space on the ship which has been fitted out for the purpose by the Corporation of Glasgow.

Her Majesty, Queen Mary, and her two sons, the Duke of York and Prince George, showed great interest in the Canadian Industries section at the British Industries Fair at Olympia, London, on the occasion of their visit. The Royal party was received by Hon. G. Howard Ferguson, High Commissioner for Canada.

The highest Canadian mountain ski ascent was made in March when Russell H. Bennett of Minneapolis, Clifford White of Banff, and Joe Weiss of Jasper, accomplished the unprecedented feat of climbing to the peak of the Snow Dome, centre of the vast Columbia ice fields. The peak is over 11,000 feet above sea level.

Bargain rates are forecast for western lines of the Canadian Pacific Railway, said C. B. Foster, passenger traffic manager of the railway, on his recent arrival in Winnipeg after an official visit to the Pacific Coast. The successful experiment in popular low rates excursions in Eastern Canada this year has invited consideration of extension of the project to the West, he added.

In continuance of its policy of inter-city visits between the major centres of population in Eastern Canada, the Canadian Pacific Railway will on April 8 operate one of the most ambitious of these projects by running a round trip excursion from Toronto to Montreal at a cost below one-fourth of that of the ordinary return fare. There is every indication of heavy participation in the excursion.

All Canada, as well as many interested mining men in far distant lands, will have an opportunity of listening to the speech of His Excellency the Governor-General, the Earl of Bessborough, to be delivered at the annual banquet of the Canadian Institute of Mining and Metallurgy at Montreal Thursday evening, April 7. It will be broadcast over 21 stations from Halifax to Vancouver over the lines of the Communications Department of the Canadian Pacific Railway. (833)

Hand It In

If you have a bit of news,
Hand it in;
Or a joke that will amuse,
Hand it in;

A story that is true,
Or an incident that's new
Will your story make us laugh
Hand it in;

Never mind about your style,
If you think it's worth
your while,
And will make our readers
smile,
HAND IT IN!—Olds Gazette,

An old Dutchman, returning to Holland, was asked by a friend what in his estimation was the strangest thing he had noticed and he replied: The United States has many wonderful things, but the strangest is a drink called a cocktail—and here is how they make it: They put whiskey in to make it strong, then water to make it weak; gin to make it hot, ice to make it cold; lemon to make it sour, sugar to make it sweet; then they say, "Here's to you and drink it themselves."

CONFIDENCE

Farmers who do business with this company are confident of safety, of good treatment and efficient service. That is based on the company's record and reputation and the experience of western farmers during more than a quarter of a century.

IMPORTANT NOTICE
Government of Alberta

Income Tax Returns

Income tax returns under the new Provincial Income Tax, are now due and should be filed with the Superintendent of Income Tax, Qu'Appelle Block, Edmonton.

BEFORE MAY 31, 1932

Forms for returns may be procured from any Provincial Government Office, such as court houses, lands titles offices, land offices, municipal secretaries, sheriffs, bailiffs, etc. or from any bank, or direct from the Supt. of Income Tax, Edmonton.

All persons residing, employed, or carrying on business in Alberta, are liable to tax on income, subject to the exemptions provided for in the Act.

Taxpayers are urged to go at once to the nearest office where forms may be procured, secure the necessary forms and make their returns immediately. Those who, after deducting the exemptions allowed in the Act, are not liable to a tax, need not fill returns.

Full information re exemptions and method of filing returns, is contained on the forms themselves.

The general penalty for failure to file returns by the date specified is 5 percent of the amount of tax payable with a maximum of \$500. Specific penalties are provided for failure to file returns under certain classifications.

CLASSIFICATION OF FORMS

- Form 1 is for individuals other than farmers or ranchers.
- Form 1A is for Farmers and Ranchers only.
- Form 2 is for Corporations and Joint Stock Companies.
- Form 3 is for Trustees, Executors, Administrators, Agents, and Assignees.
- Form 4 is for Employers, including educational, charitable and religious institutions, making a return of the names and amounts paid to directors, officials, agents or other employers during 1931.
- Form 5 is for Companies and Joint Stock Companies making a return of all dividends and bonuses paid to shareholders and members during 1931.

Further information will be furnished on application to

The Ladies Guild will hold their monthly Home Cooking Sale in Chrestenson's store on Saturday, May 7th.

A carload of oats was shipped into Arrowwood through the Searle Grain Co. Ltd. for Tom Barr of Mossleigh.

Thursday after school, eighteen friends of Velma Lord gathered at her home to celebrate her birthday.

Rev. V. M. Gilbert will be in Standard next Sunday, where he will conduct the annual Memorial Service of the Knights of Pythias.

A home cooking sale will be held in Chrestenson's store on Saturday April 30, at 2 p.m., by the Arrowwood Town Girls Basket Ball team.

A very pleasant evening was spent at the home of Mr. and Mrs. J. S. Culp in honor of Mr. and Mrs. M. Eshom, on Monday, before their departure for Tanasket, Wash. There were thirty-five friends of Mr. and Mrs. Eshom present.

Lawrence Larsen went to Calgary last week just before the storm and was unable to return until Tuesday morning owing to the severity of it in the city. Lawrence says the roads were pretty tough but things could be worse. There is nothing any better than the moisture that we got.

Through telephone and light service were out of order during the storm, the supply of water at the town well was adequate at all times; thanks to the fathers of the town.

Milk—A Necessary Food

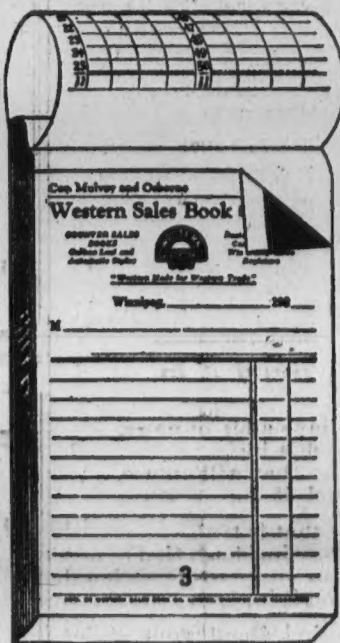

At the present time when in many homes food budgets must be drastically reduced, the importance of knowing the value of foods and their relation to the needs of the body, cannot be over-emphasized. In addition to satisfying the pangs of hunger, food must supply energy, maintain health, build up resistance to disease, and, in the case of the child, furnish the materials for building a sound body. Milk should be given a prominent place in the low cost diet, as it is the most perfect of all foods, supplying a valuable form of protein for body building; energy from its sugar and fats; calcium and phosphorous so vital in bone and tooth structure; vitamins which render it one of the "protective foods." Butter has no substitute among the fats, while cheese is a highly concentrated food which provides splendid nourishment at low cost.

Growing Smiles

A smile is quite a funny thing. It wrinkles up your face, And when its gone you never find, Its secret hiding place. But far more wonderful it is To see what smiles can do. You smile at one, he smiles at you; And so one smile makes two. Someone passes since you smile And then that one smiles back; Others smile before it's ended, Until you fail in keeping track. Now since a smile can do great good, By cheering hearts of care, Let's smile and smile and not forget That smiles go everywhere.

TRAIN SCHEDULE AT GLEICHEN

THE WAGIN' TUNG

Vol. 1, No. 37 Arrowwood, April 28, 1932 Items for Thot

We Are Away

Now since the Arrowwood wheat lands have received a thorough soaking there is a feeling of optimism throughout the district that is characteristic of our people, and those who have "kept their powder dry" are away for a bigger and better start than they have had for years.

The recent rains are what we have been looking for, during the past three years. They certainly have been welcome, but at the same time they are causing you some delay with your spring work. There is a no better time than the present to think about a "Tiller Combine" for killing those weeds that will be getting such a good start and at the same time put the seed into that mellow, moist dirt and give it an equal chance with any new weeds that may start.

We can also supply you a Tiller machine without the seed box, which can be put on at any time.

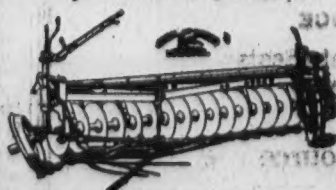

Teacher: "Johnny, I'm surprised! Do you know any more jokes like that?"
Johnny: "Yes teacher."
Teacher: "Well, stay after school."

Elephant Brand Fertilizer sold in small quantities for you garden rows at 7c per pound or 4 pounds for 25 cents. It will pay you to fertilize your garden truck and a trial plot will convince you by another season.

Autolenes, the life saver for your gasoline engines. Firestones for mileage and safety.

Larsen Implements for service—It's yours for the asking.

No one appreciates your business more than we do.
